

Priority Research Questions for TB/HIV in HIV-Prevalent and Resource-Limited Settings

understanding **Author:** World Health Organization

Publication Date: 2010

Format: Report

Physical Description: 64p.: mono.; annex., refs.

Language: English

Abstract:

This document is intended to raise awareness about TB/HIV research priorities (i.e. areas that require urgent funding and scientific interest), help coordinate advocacy efforts, and encourage research funding. The aim is to increase the implementation of high-quality, integrated TB/HIV interventions in resource-limited settings. The document outlines a revised research priority agenda based on the latest evidence in six key areas of TB and HIV co-infection.
